PROFESSIONAL SUMMARY

Full-Stack Developer with 2+ year of hands-on experience in backend development using Laravel and CodeIgniter, RESTful APIs, and MySQL. Skilled in building real-time, scalable applications including e-commerce platforms, banking systems, CRM tools, and customized web solutions such as matrimonial platforms. Proficient in frontend technologies like Bootstrap, Material CSS, JavaScript, and jQuery, React with a solid understanding of UI/UX principles. Passionate about delivering secure, reliable, and high-performance full-stack solutions aligned with business needs.

SKILLS

- **Programming & Frameworks:** PHP (Core & OOP), Laravel, CodeIgniter (3 & 4), JavaScript, jQuery
- **Frontend:** HTML5, CSS3, Bootstrap, Material CSS, React
- **Database:** MySQL (Schema Design, Query Optimization, Indexing),
- **APIs & Integrations:** RESTful APIs, Payment Gateway Integration (PhonePe, Razorpay)
- **Tools & Platforms:** Git, GitHub, Postman, PHPUnit, Docker
- **Other:** UI/UX Design, Cybersecurity (CTFs), MVC Architecture, Agile Development

WORK EXPERIENCE

CodeX Technologies | Mumbai, India | June 2023 - Present
Full Stack Developer

- Developed and optimized RESTful APIs for authentication, wallet, and reward points management, ensuring secure and scalable performance.
- Built and implemented a role-based admin and super admin system for Lotus Brand Bazaar, improving access control and operational security.
- Contributed to frontend development and backend API development for multiple matrimonial platforms (Pavitralagna, Blesslagna, Yogyanati, Marathisoyrik, Lagnachibedi).
- Designed and integrated payment gateway solutions (PhonePe, Razorpay), handling real-time financial transactions securely.
- Developed CRM and banking-related applications with high-performance, secure, and scalable architecture.

FREELANCE PROJECTS

Independent Projects | January 2025 - March 2025
Business Management Web Application (Gold Loan System)

- Successfully delivered a fully customized business management system for a freelance client.
- Delivered a Business Management Web Application (Gold Loan System) using CodeIgniter 4, MySQL, and Bootstrap 5.
- Built and maintained APIs for profit & loss tracking, employee salary & borrowings, customer lending, and gold loan management.
- Implemented dual-language support (Marathi & English), CSRF protection, real-time AJAX updates, and PDF report generation
- Designed and deployed the complete full-stack solution aligned with client's business operations and reporting workflows.
